

Feedback & Online Reviews So Much Appreciated

If you have some time and feel like leaving a review...please help :-). Most business is gained online but it's not easy to get a good ranking on search engines. Reviews also really help customers to be able to trust the business and although we currently have many Google reviews, we need to get more to keep up with competition and show we are still working well. If you could do any of the below (many would be amazing) it would so helpful. Please help!

Tip: You shouldn't have to type 'http://' bit into the web address bar at the very top of a web browser

Google: <http://bit.ly/scs-google>

TrustPilot: <http://bit.ly/scs-trustpilot>

FreeIndex: <http://bit.ly/scs-freeindex>

Facebook: <http://bit.ly/scs-facebook> - Please leave a review/recommendation rather than a tradition post that doesn't count in the star rating system.

Yell: <http://bit.ly/scs-yell2>

Yelp: yelp.com/biz/sheffield-computer-services-sheffield-2

Thank you so much!
