

## **Feedback & Online Reviews So Much Appreciated**

If you have some time and feel like leaving a review...please help :-). A lot of my business is gained online but it's not easy to get a good ranking on search engines. Reviews really help, so if you could do any of the below (all would be amazing) it would go really helpful for me.

**Google:** <https://is.gd/zcmn54>

**TrustPilot:** <https://is.gd/ivecem>

**FreeIndex:** <https://is.gd/dequpa>

It's easy to leave a review with all of these – and all reviews on all three are vital to future business generation.

**Facebook:** [facebook.com/SheffieldComputerServices](https://facebook.com/SheffieldComputerServices) - click on 'reviews' near the top of the page, rather than a tradition post the doesn't count in the star rating system (Facebook changes things often! So to leave a review or recommendation might require a different process).
